

KASA KRANTHI KIRAN

Generative AI Enthusiast | Software Developer

📍 Nandyal, Andhra Pradesh | 📞 +91 6305088295 | ✉ kasakk2006@gmail.com | 🌐 [Portfolio](#) | 💼 [LinkedIn](#) | 🖱 [GitHub](#)

EDUCATION

Bachelor of Engineering in Computer (AI & ML)

2023 – 2027

Santhiram Engineering College (Autonomous), Nandyal. CGPA: 7.95

SKILL SUMMARY

Languages: Python, JavaScript, HTML5, CSS3

Frameworks & Technologies: React.js, FastAPI, Node.js, Express.js, MongoDB, REST APIs, LLM Integration, Prompt Engineering

Tools: Git, GitHub, Vercel, VS Code, Power BI, Cursor, Claude

Soft Skills: Problem Solving, Communication, Team Collaboration, Adaptability

INTERNSHIPS

Software Engineering Intern

Oct-Dec 2025

YugaYatra Retail (OPC) Private Ltd

- Contributed to software development tasks by collaborating with the engineering team.
- Assisted in implementing features, debugging issues, and improving application functionality.

Generative AI Intern

May 2025

CodeTantra

- Built and tested Generative AI applications using Python.
- Applied prompt engineering techniques to improve AI-generated responses.
- Explored Large Language Models (LLMs) and their practical applications.

PROJECTS

LakshyaTrack - AI-Powered Career Agent (React.js, FastAPI, MongoDB, Python, REST API, Vercel)

- Built an AI-powered career guidance platform with resume builder, personalized roadmaps, and learning progress tracking.
- Developed the frontend using React and backend APIs using FastAPI and MongoDB.
- Integrated REST APIs and AI features to provide personalized career recommendations.

CampusPulse (React, Python, FastAPI, Node.js, Express.js, PostgreSQL)

- Developed a centralized platform for discovering and managing campus events.
- Built responsive frontend using React and backend APIs using FastAPI and Express.js.
- Used PostgreSQL to manage event, user, and registration data efficiently.

CERTIFICATIONS

- Artificial Intelligence Fundamentals — IBM SkillsBuild
- Introduction to Generative AI — IBM SkillsBuild
- Prompt Engineering for Everyone — IBM Developer Skills Network
- MongoDB Overview: Core Concepts and Architecture — MongoDB
- Data Analytics Job Simulation — Deloitte (Forage)
- AI for Beginners — HP LIFE

ACHIEVEMENTS

- Won 1st Place in the GenAI Forge Hackathon 2026, organized by NASSCOM FutureSkills Prime, for developing an AI-powered solution.
- Won 1st Place in the Web Development Challenge, receiving a ₹1,600 cash prize for designing and developing a fully functional responsive web application.
- Won 1st Place in the Emience AI Competition, receiving a ₹1,500 cash prize for developing an innovative AI solution.

HOBBIES

- Building AI and web development projects.
- Exploring Generative AI and emerging technologies.
- Participating in coding contests and hackathons.
